SUMMARY

Android App Developer and Software Engineer with strong hands-on experience in building scalable, modern Android applications using Kotlin, Firebase, and REST APIs. Skilled in designing clean UI/UX with Material Design, implementing role-based access systems, online payment integration, and real-time data handling.

SKILLS

Languages: C, C++, Java, Kotlin, Dart, HTML, CSS, Flutter, Java

Android: Android Studio, XML UI, Material Design, Firebase (Auth, Firestore), Retrofit, Razorpay

UI/UX: Figma, Lottie Animations, Uplabs

CS Fundamentals: Data Structures and Algorithms (C)

Tools: VS Code, Android Studio, GitHub, Figma, UPLabs, Lottie Animation, Firebase, Supabase

PROFESSIONAL EXPERIENCE

StockOps – Finance Club, IIIT Vadodara ICD Member

Nov 2024 – Present

PROJECTS

Prastuti Point (User & Admin Applications) User App — Admin App

Prastuti Point is a full-stack Android application developed in Kotlin, leveraging Firebase and Supabase for backend services. The app implements role-based access (Admin/User/Employee), supports online payments via Razorpay, and provides admission data management with PDF generation and downloads.

Smart Weather App GitHub repo

Modern Android weather app built with Kotlin, Retrofit, and OpenWeatherMap API. Features include: City search, live updates, weather details (temperature, humidity, wind, sea level). Animated UI with Lottie animations. Background adapts to weather/time of day.

Portfolio Website Live Website

Personal responsive portfolio showcasing journey as an Android developer & UI/UX designer. Built with HTML, CSS, and JavaScript. Includes featured projects, technical skills, achievements, and contact form.
